ABOUT CHICAGO STARS FC

The Chicago Stars Football Club is the premier women's soccer club in Chicago. Formerly known as the Chicago Red Stars, the team is a founding member of the National Women's Soccer League along with the Boston Breakers, FC Kansas City, Portland Thorns FC, Seattle Reign FC, Sky Blue FC, Washington Spirit and Western New York Flash. The team received its charter in 2006, chose a name in 2008 and played the first match in 2009 in the Women's Professional Soccer (WPS) league. Following the end of the WPS, the club joined the Women's Premier Soccer League (WPSL) before helping found the NWSL in 2013.

The Chicago Stars played their first three seasons at Benedictine University in Lisle, Illinois, before moving to SeatGeek Stadium in Bridgeview, Illinois. After a decade at SeatGeek Stadium, the club announced it would play the 2026 NWSL season at Northwestern Medicine Field at Martin Stadium in Evanston, Illinois. The Stars have been home for legends of the game including Formiga (BRA), Carli Lloyd, Julie Ertz, Christen Press, Sam Kerr, Lori Chalupny and Megan Rapinoe, who was the club's first draft pick. The team is currently home to Olympic gold medalists Alyssa Naeher, Mallory Swanson and Julia Grosso.

The Chicago Stars have made the NWSL playoffs in eight of the league's twelve seasons (2015-2019, 2021-2023, 2024), second most in league history behind only the Portland Thorns. The Stars made the NWSL Championship match in 2019 and 2021, as well as the first iteration of the league's Challenge Cup in 2020.

In September of 2023, the club came under the stewardship of a new ownership group led by Laura Ricketts, co-owner of the Chicago Cubs. In the first year under the new ownership group, the club appointed former chief legal officer of U.S. Soccer, Karen Leetzow, as club president and brought in Richard Feuz from Switzerland's Servette to serve as general manager. Under new leadership, the team made it back to the playoffs in 2024 after finishing bottom of the table in 2023.

In October of 2024, the club rebranded and changed its name from Chicago Red Stars to Chicago Stars FC. The club also changed its crest while maintaining elements from the previous crest, including the red star that represents the club's players, who are at the heart of organization.

SOCCER OPERATIONS

GENERAL MANAGER RICHARD FEUZ

Richard Feuz is the general manager for the Chicago Stars, appointed on February 6, 2024. Prior to joining the Stars, Feuz was the chief executive officer for the Swiss side, Servette Football Club. In addition to serving as the club's CEO, Feuz served as the president and sporting director of the Servette women's team since 2017. As the general manager for the Chicago Stars, Feuz is responsible for leading the soccer operations team including coaches, athletic trainers, high performance, equipment and administrative associates, as well as working with the coaches and assistant general manager to construct a competitive roster.

ASSISTANT GENERAL MANAGER BEATRICE CALIANI

Beatrice Caliani joined the Chicago Stars in February 2026, bringing an international background with experience across elite soccer and major global sporting events. Previously Assistant General Manager at OL Lyonnnes in France, she collaborated within one of the most successful organizations in women's soccer and worked closely with their former NWSL franchise, Seattle Reign FC, strengthening cross-Atlantic collaboration and operational alignment. Caliani was also involved in the organization of the Paris 2024 Olympic Games, UEFA Women's Euro 2025 and worked with the French Football Federation.

HEAD COACH MARTIN SJÖGREN

Martin Sjögren, a former footballer and Norwegian Women's National Team head coach, was named head coach of the Chicago Stars in August 2025. Before joining Chicago Stars FC, Sjögren spent most of his playing and coaching career in Sweden. After spending time playing in various levels of Swedish league, Sjögren started his coaching career with two years at Östers IF before joining LdB FC Malmö where he served as an assistant coach from 2006-2009 before becoming the team's head coach. With LdB FC Malmö, Sjögren won the Swedish league in two consecutive seasons (2010 & 2011). As head coach of Linköping FC from 2012-2016, Sjögren led them to one third-place finish (2013) and two fourth place finishes (2014, 2015) on the Swedish league table before taking the team through an undefeated season in 2016 and winning the Damallsvenskan league. Following the success at Linköping FC, Sjögren was named head coach of the Norwegian Women's National Team. Norway qualified for the 2019 FIFA Women's World Cup under Sjögren and made it to the quarterfinals. Following his time in Norway, Sjögren joined Swedish side, Hammarby IF, and led the team to a third-place finish on the league table, qualifying them for the Champions League before they finished second in 2025.

SOCCER OPERATIONS

ASSISTANT COACH ANDERS JACOBSON

Anders Jacobson joined the Chicago Stars alongside longtime colleague, Martin Sjögren, in August 2025, serving as interim head coach for Chicago Stars FC from September 7, 2025, through the end of the 2025 NWSL season. After beginning his career as a youth coach in Sweden in 2007, Jacobson joined Sjögren at Linköping FC in 2013, serving as assistant coach during the team's run of top five finishes in the league, and the team's undefeated season in 2016. Jacobson left Linköping FC at the end of 2016 to join Norway's coaching staff alongside Sjögren where he remained through 2022. In 2023, Jacobson was named head coach of Linköping FC and led the team to a third-place finish qualifying them for the Champions League. Jacobson most recently served as the head of analysis for BK Häcken.

ASSISTANT COACH KARINA BÁEZ

Karina Báez is in her third year as assistant coach for the Chicago Stars. Báez now serves as the assistant coach of analytics for the club after working with the Mexican Women's National Team as a scout. Prior to working with the national team, the coach worked with Pachuca and Tigres women's teams in the Liga MX Femenil league. With both teams, Báez served as an assistant coach and helped coach the under-15 and under-17 teams. In 2021, Báez was named the head coach for Pumas UNAM's women's team where she was head coach for one year.

GOALKEEPER COACH DANIEL BALL

Daniel Ball joined the Chicago Stars in January 2025 and brings more than a decade of experience to Chicago, including more than three years in the NWSL. Before coaching at Gotham FC and, most recently, Angel City FC, Ball served as an assistant coach and/or goalkeeper coach at Milligan College, Concordia University, Bowling Green State, Iowa State and Nebraska.

ASSISTANT COACH MARIANA CABRAL

Coach Mariana Cabral joins the Stars from Utah Royals FC, where she served as an assistant coach for the 2025 NWSL season and was the former head coach at Sporting Clube de Portugal. Before she began her coaching career, she played professionally in Portugal until she hung up her boots to become a journalist. In 2021, Cabral put her journalism career aside to become head coach of Sporting Clube de Portugal. While she led the team, Sporting finished second in the league for two consecutive years, adding another Supertaça de Portugal Feminina title in August 2024 before Cabral headed stateside to join the Utah Royals.

STADIUM AND FACILITIES

NORTHWESTERN MEDICINE FIELD AT MARTIN STADIUM - EVANSTON, ILLINOIS

Situated on the shores of Lake Michigan, Northwestern Medicine Field at Martin Stadium is the 2026 home of Chicago Stars FC in addition to Northwestern football, lacrosse and soccer. The upgraded facility began operation ahead of the 2024 season. It will continue to serve as Northwestern football's primary home during the construction of the new Ryan Field.

The site opened as Lanny and Sharon Martin Stadium, part of the Leonard B. Thomas Sports Complex, built in 1997, served as the home of Northwestern soccer and lacrosse before being reopened as Northwestern Medicine Field at Martin Stadium in 2024.

The facility is mainly made up of bleachers, with a 5,000-seat grandstand on the north end of the field, over 1,000 bleacher seats on the east end, and 3,000 additional bench seats on the west side, as well as 100 loft chairs and 100 stools above. The South end of the field features 16 open-air suites that comprise the two levels of premium, all-inclusive club seating and 2,000+ premium seatbacks.

The facility's rapid construction in just 65 days is an engineering marvel of its own and has paid off, with praise coming from both the press and the public on social media. Dan and Susan Jones Family Head Football Coach David Braun said to The Athletic, "I would challenge anyone in the country to get a bunch of people together to be this creative to pull something off like this. Honestly, I think it's only something that could be pulled off by a place like Northwestern."

PARKING

Parking can be purchased online when you purchase match tickets or upon arrival. Lots open three (3) hours prior to kickoff.

BOX OFFICE

The Ticket Office will be open three (3) hours prior to the event and is located near the North Gate inside the Henry Crown Sports Pavilion at 2311 N Campus Drive Evanston, IL 60208. The Ticket Office will remain open through the first half of each match.

TAILGATING

Tailgating is permitted on the rop deck of the Lakeside Structure lot or surface lots West of Sheridan Road. All parking lots open three hours before each home match. Tailgating is not allowed on lakefront beaches or lawns on Northwestern's campus.

MEDIA PROTOCOLS

Matchday Protocols

All media members must apply for a season or single-game credential with the Chicago Stars FC Communications Department in order to cover Chicago Stars matches.

Once media members receive approval, they will receive an email with instructions and protocols for the match they selected to cover.

On matchday, media members must park in the North Parking Garage (2333 N. Campus Dr.). Credentialed media members will receive an email with a parking pass to access the garage. Media check-in can be accessed inside the Henry Crown Sports Pavilion, where a Stars communications associate will check in members of the media, provide a credential and/or a bib for photographers. Media check-in begins 2 hours prior to the match kick off time and ends 15 minutes before kickoff.

Once checked in, media members will be directed to the photo work room or the media meal room located inside the Walter Athletics Center. Before entering the Walter Athletics Center, media will be required to pass through security. Please be prepared to show your credential, have bags checked and pass through a metal detector. The photo work room is located on the first floor of the Walter Athletics Center, while the meal room will be on the third floor of the building. Elevators are available to access the meal room. Media are encouraged to stop by the meal room prior to kickoff as the media meal may be torn down following kickoff of the match. Please note: The photo work room will double as the postmatch press conference space.

The press box can be accessed by entering the stadium through the Northwest corner of the pitch. Take the stairs up to access one of the three press box spaces. Seating is assigned, so please consult the seating chart located outside each space to find the appropriate seat.

Media will not have access to the field unless it was requested and approved upon submission of their credential application. Additionally, there will be no access to the back of house areas of the stadium.

10 to 15 minutes after the final whistle, Chicago Stars communications associates will host a postmatch media availability with 1-2 players and the head coach in the photo work room. Media members will meet a Chicago Stars communications associate outside the press boxes and must be escorted to the postmatch media availability. An option to attend the media availability virtually will be made available to anyone who would like to do so.

Event Media Guidelines

Media shall consist of the following categories: writers, photographers, videographers, radio and television broadcasters and their crews. Photographers and/or videographers must be attached to a legitimate media organization to gain credentials. Credentials are not transferable and must be worn in a visible location at all times.

The following actions may result in seizure of credential and/or ejection of its wearer from the stadium or training facility:

- Requesting autographs at any time
- Taking photographs with players/coaches
- Using credential for family or friends of a working media member
- Conducting of unauthorized interviews outside of prescribed media access periods
- Unprofessional behavior (cheering in the press box, consumption of alcoholic beverages, failure to abide by posted rules, etc.)

MEDIA PROTOCOLS

Treatment of Credentialed Media

Teams are permitted to designate one (1) day each training week as an open session (meaning the entirety of the training session will be open to media) but shall accommodate in-training availability as requested for the remainder of the week (minimum of 15 minutes; pre/post-training interviews).

Matchday-1 and Matchday-2 Media Pressers: Teams are required to make both the head coach and 1-2 players available to media at a pre-match press conference on MD-1 or MD-2. Any additional interview requests and availability will be accommodated to the best of the PR staff's ability following each presser.

Post-Match Media Access: All players must be available for post-match media upon request. Teams may designate a space within the stadium to conduct interviews. In addition to general availability, two players and the head coach from BOTH teams will be made available in a press conference format. Home teams must provide in-person access to attending media in addition to virtual press conferences. Visiting teams are permitted to hold virtual press conferences but should similarly make every effort to provide access to in-person media.

At least two players will be made available starting approximately 10 minutes after the final match whistle and head coaches will be made available approximately 20 minutes after the final match whistle (or vice versa). Players and coaches will prioritize live post-match interviews over all other on-pitch activities. Clubs are not permitted to change the requested player unless player goes to the locker room for medical attention. Locker rooms will not be open to the media without the express permission of the NWSL and the NWSL Players Association.

Any player or coach that has been dismissed during a match will be ineligible to participate in any postgame media interviews following the match.

Team PR directors will highlight players from the match and make all efforts to secure requested names from attending media, or media in the 'NWSLMedia' Slack channel, when choosing available players for press conferences. Selected players should be confirmed prior to the end of the match and clearly communicated to attending media as soon as possible. Team PR staff must be present to indicate the beginning and end of media access to players and coaches. All policies regarding post-match media access should be clearly communicated to media, team staff and security to ensure a secure environment.

Seating Access: Accredited media members will have access to the stadium, professional workrooms and stadium seating, if available. In addition, each stadium should have a press box capable of seating no less than ten (10) people, with separate areas for working press and electronic broadcasters, and sufficient power outlets for all needs. Every effort should be made to ensure all accredited media members have a seat in the press box.

All credentialed media shall be seated in media seating areas, consistent with treatment afforded to comparable media. In addition, all members of the media are to be provided with equal treatment and access to facilities and personnel, regardless of sex.

When the press box is fully occupied by working media, referee assessors or in-stadium observers shall be provided seating with a desk or table shielded from the weather and a vantage point to view replays (if available) from any telecast. The specific location may be determined by the home team, but minimum accommodations must be provided.

MEDIA PROTOCOLS

In order to maintain the integrity of the working press box, seating is specifically reserved for media members along with home and away team PR. All other individuals (including player agents, VIP's and administrators) should be seated in overflow booths/suites or assigned stadium seats.

Traveling Media: The home team shall provide seating for traveling media members at each match in the press box and should keep in mind the needs of media members traveling from the visiting team's area. The PR department of the visiting team should advise the home team no less than 48 hours in advance of how many members of traveling media plan to attend the match.

Guidelines for Photographers and Camera Operators: With the exception of staff/league photographers, national rights-holders or NWSL crews present at a match, all photographers and television camera operators must stay behind the field boards at all times, unless released by the on-site photo marshal. All non-league and team photographers and camera operators shall be permitted behind the field boards in the area bounded by the top of the 18-yard box and the end line (a C-shape that extends from the top of the 18, back behind the goal, and to the top of the 18 on the opposite side of the field).

Each photographer will be permitted to use one monopod — but no tripods. No seats other than “lawn-type” photographer seats will be permitted at the discretion of the stadium. Stand-alone remote units will not be permitted at any time on or around the goal posts without the prior express approval from the NWSL Operations department. Units mounted on the top of field boards behind the end line will be permitted at the stadium's discretion, provided the equipment does not interfere with the clear display of the field board and does not impede the operation of broadcast equipment.

Live television crews located on the baseline or sideline will be limited to two (2) people — a camera operator and a cable-puller — and ENG crews will be limited to one (1) person. In either case, the crew must maintain actual possession of the camera and any other equipment during all match action. Cameramen and cable-pullers from all television crews must remain off the playing field and behind field boards at all times.

Once situated, no movement between the two halves of the field shall be permitted until halftime. Changes in this policy will be allowed in cases where stadium facilities dictate alterations and these changes have been approved by the NWSL Communications office. However, no photographers shall be allowed to move from end to end on the bench side of the field.

Photographer Identification: In addition to their regular credential, it is strongly recommended that photographers and camera crews be issued with colored bibs or armbands. This will necessitate a special area in or near the stadium where they can pick up their bibs, on presentation of their accreditation, either the day before the match or on match day, at the time media gates are opened. If they are not to be allowed to keep the bib, then it should be exchanged for a press card to be picked up following the match, or else signed out.

Photography Work Area: A work area should be provided for photographers, near the field where appropriate, with high-speed internet access. The size of the room may vary, but it should be sizeable enough for at least 5 - 10 people to work on desktops/tables. Like the press section of the stands, the photographers' work room should have sufficient electrical sockets and compatible with the equipment being used for transmission.

Accreditation: NWSL does not permit the accreditation of photographers shooting specifically for commercial agencies. However, since many agencies offer editorial and commercial sales options (Getty Images, AP, Reuters, etc.) this must be handled on a case-by-case basis.

MEDIA PROTOCOLS

Non-Rights Holder Video Guidelines

All rights to match footage including all applicable copyrights belong to NWSL. For the 2026 season, CBS, ESPN, Prime Video, Scripps, and Victory+ are the sole US rights holders for broadcasting matches. Organizations interested in recording video footage at an NWSL match for non-news gathering purposes must contact the NWSL Communications office.

Television Broadcasters

Match Action: Television broadcasters can use footage of NWSL events obtained either via 1) their own recording or 2) action dubbed from a NWSL rights holder broadcast (CBS, ESPN, Prime Video, Scripps) with credit only in connection with its regularly scheduled news programming within a week of the match. This footage should not exceed two (2) minutes. Highlights aired as part of a continuous news program should not be longer than one (1) minute per 30-minute segment. Credits: NWSL, LLC.

Filming - Match Action: For televised events, non-rights holders / ENG cameras may record the first 15 minutes of each half (from 00:00 to 15:00 and 45:00 to 60:00 on the match clock). For non-televised events, non-rights holders / ENG cameras may record the entire match but are still subject to the aforementioned limits. This includes events that are streamed live online.

Filming - Interviews and Scene Sets: There is no limit to the gathering of footage pre-match, at halftime and post-match. All footage gathered is subject to the usage guidelines indicated in this document.

Filming - In Seating Area: Video cameras looking to shoot in the concourse or seating area must contact home team and NWSL in advance of the event for approval.

Previews or Advances: In advance of a NWSL event, television broadcasters can use two (2) minutes of archival match action to preview an upcoming event. In the local/regional markets, broadcasters should mention the time and location of the match along with their report. Outside of the local markets, broadcasters should mention the time and broadcast information.

Television Broadcasters' Web Sites: Video produced for air as part of regular programming that is simulcast or archived online must be accompanied by a link to NWSLSoccer.com. Content produced exclusively for the Internet is subject to the guidelines for Online Video.

Online Video

Match Action: Online organizations (including print publications that post video online) are not permitted to film or use match action video without prior written approval by the League. Match action includes any footage of the field, teams, etc., following the beginning of the television broadcast window. Only video of off-field activities (i.e. interviews, training sessions) may be recorded.

Non-Match Video: Any video posted online that is recorded as part of media access is limited to the use of eight (8) minutes per day/activity date. Online video may not incorporate integrated advertising and must be accompanied by links to NWSLSoccer.com.

Professional Presentation: Online video is expected to be recorded, edited and presented in a professional manner. Video must be presented/hosted on an organization's website, and not solely on a site provided by a third-party (i.e., YouTube, Vimeo, Facebook, etc.).

Online Video Sites: Organizations who regularly post video to online video sites (i.e., YouTube, Vimeo, etc.) may not include advertising with video gathered as a result of media access. Allowing users to embed these videos is not permitted, and the description of any video must include a link to NWSLSoccer.com.
